

## Introduction

Teachers mission and the results of their work have nowadays a big impact for the society and for the human beings in general. Therefore, learning the most innovative education techniques are a key competence for any professional in the teaching profession.

In this course, we will analyze, study and experience different innovative methodologies for teachers, such as *Project Based Learning*, *Cooperative Learning*, *Design Thinking* and *Educative Coaching*.

## Objectives

The aims of the course are:

- ✓ Develop and improve new competences, attitudes and abilities of the teachers
- ✓ Improve the quality of teaching and promote innovative work and exchange of good practices
- ✓ Get new resources to use with the students in the classroom
- ✓ Get closer to the students needs
- ✓ Motivate the students in a more adequate learning atmosphere
- ✓ Deal with problematic situations inside and outside the classroom

## Target group

The training course is addressed to primary and secondary school teachers, school psychologists, adults teachers as well as boarding teams in these types of schools.

## Language of course

This course can be provided in English.

## Methodology

The course is based on an active and participative learning/teaching approach with theoretical exposition of the contents along with practical tools that allow the integration and dynamization of all of the work group such as:

- ✓ Practical cases
- ✓ Text and article comments
- ✓ Simulations and Role-Play
- ✓ Short pieces of films close related with our topics

It is foreseen 4 days of practical lessons and 1 day of visit to a school or organisation dealing with the subjects of the course.

## Programme

### Day 1 – 4 hours PBL (Project Based Learning)

Project Based Learning is a methodology that allows the students to acquire knowledge and key competences demanded in XXI century thanks to the elaboration of projects in connection to real life problems.

### Day 2 – 4 hours Cooperative Learning – Aronson Jigsaw puzzle approach

Cooperative Learning is an active methodology where the students are the protagonists of the learning, working in groups to do the proposed works in a collaborative way.

### Day 3 – 4 hours Design Thinking

Design Thinking is a structured approach to generate and develop new ideas, projects or solving arguments in an innovative and creative way.

### Day 4 – 4 hours Educative Coaching

Educative Coaching is an active methodology based in the learning processes of *learning to learn*. The main goal is to give tools to the professional to succeed in dealing with the achievement of personal, academic and professional goals of their students.

### Day 5 – 4 hours Practical session

- Visit a school in Valencia
- Evaluation and certification
