

# WELLBEING FOR SCHOOL STAFF: MINDFULNESS & PRACTICAL YOGA

## Objectives

The objectives of this course are:

- Delve into emotional intelligence/mindfulness through access to the creative mind
- Experience sensory meditative practices through movement, nature, and sound
- Understand deeper the practice of yoga and how to implement it in daily life
- Practice yoga, breathwork, and mind/body connection

## Target Group

This training course is addressed to all school staff in general who are interested in focusing on increasing their wellbeing through the practices of mindfulness and yoga. This course is recommended for both primary and secondary teachers, university teachers, teachers of language courses or private classes, VET teachers, and any general staff members of the school. Participants will benefit both professionally and personally from this course.

## Language of course

This course will be provided in English by two different trainers. You will experience different accents. Both trainers have experience working with participants that have English as their second language. The language level will always be adapted according to the level of comfort and needs of the participants. The trainers will place emphasis on the non-verbal communication with gestures, smiles, and movement, so the message is always received.

## Methodology

The approach used in this course is personalized and practical. The professionals that train you have accumulated a plethora of information in the fields of emotional intelligence, yoga, and mindfulness, and will apply this knowledge within the course for your benefit. For this course to reach the most satisfactory results, it is necessary to have the active participation of each of the group participants. A form will be sent before the course, which is necessary to fill out **beforehand**, so the trainers can have the pertinent information before starting the training. This course will be split into two sections: two days with the focus on emotional intelligence/mindfulness, and two days with the focus on yoga practice.
