

8 PRACTICAL CASES IN CONFLICT MANAGEMENT IN THE CLASSROOM

Objectives

The aims of the course are:

- Learn different tools and resources to solve and reduce conflicts
- Describe conflict situations in the classroom and how we can address them
- Apply techniques to solve practical situations in different contexts
- Reflect environmental circumstances that can affect divisiveness in the classroom

Target Group

The training course is addressed to primary and secondary school teachers, VET teachers, VET trainers, adults' teachers, managers, and employees of enterprises as well as social and youth workers of non-profit organizations and public entities.

Language of course

This course will be provided in English. The trainer has many years of experience working with students and teachers who do not speak English as their first language. The language level will be adapted according to the level of comfort of the participants.

Methodology

This course starts from some previous definitions to continue reflecting on the most relevant aspects of the course to finish with its practical application in the classroom.

The approach used is highly practical and based on the previous professional experiences that trainer has been accumulating in this field. The methodology is mainly based on informal and non-formal education methods and has a very participatory approach.

It combines learning by doing methodologies with the transmission of contents and requires active participation in order to achieve the most satisfactory results. Participants will be also experiencing themselves and trying out some methodologies, by working in small groups.
